DUAL

POS...Check it out !!!

With Senor's Dual POS, entertain and inform your customers!!!

Today, with the interactive R&D and Marketing team, Senor has improved the flagship model into not only the simple and effective POS machine, but also an Advertising medium.

By building on the best of the best, Senor has added an Interactive Touch LCD display to the back of the Shop POS, enabling MP3 advertisings, promotions, and even weather forecasts to be shown to your customers.

Three years ago, Senor's Shop POS took the world by storm!!! With the stylish design, small footprint, ultimate reliability, it has been the greatest shop assistant any storeowners could own!!!

Dual Display POS....
Pure Advertising Pleasure
